NHM series

NHM Series provides the largest machining specifications and production capabilities in its class including powerful cutting capabilities for satisfying diversified needs for production of customers. The integrated structure of the box-type guideway is the optimal structure of excellent production capabilities for machining various materials from common parts to metal hard of cutting with its high rigidity capacity required for powerful cutting process. In addition, replacement speed of tools and palettes at servo motor driving for keeping non-cutting time minimal improves reliability and productivity.

26 Customer Support Service

High Rigidity One-Piece Bed

The high rigidity one-piece bed supports heavy duty cutting with the adoption of Finite Element Method (FEM) analysis.

High Productivity and Reliability

The servo-driven automatic tool changer (ATC) and automatic pallet changer improve parts durability and maintainability, leading to improved product quality. Compatibility with the pallet extension system and minimized idle time ensure even higher productivity.

User-Friendly Functions

Various new user-friendly functions have been introduced to reduce the operator's work load

Machine Structure

The machine of one-piece structure of the bed and the column yields high productivity.

High Rigidity Bed Structure

NHM Series is designed for keeping high stability and durability intact through FEM technologies; the series ensures continuous powerful cutting power with the structure applied with M- and W-type ribs.

W-type rib

M-type rib

Double-Wall Configuration

The main body of the system is designed in double wall structure for preventing leak of cutting oil: This design allows easy maintenance and improves productivity as well.

Travel Axis

High rigidity is realized with the wide box-type guideway.

Strong Feed Axis Structure

The extended box-type guideways are applied to all of the axes for providing higher rigidity, and the optimal dynamic rigidity of the main sliding parts further improve capabilities of strong cutting.

Half-Floating Air Structure of Feed System

The half-floating air structure mitigates friction resistance during feed along the X axis resulted from the mass of the spindle and the column for improving accuracy of positioning and repeatability.

Powerful Ball Screw and Thermal Displacement Control

The 3-row bearing applied with the rigid coupling keeps precision and rigidity for individual axes high, and high accuracy is implemented by controlling thermal displacement by the ball screw locking devices and the nut cooling system on the all of the axes.

Spindle

Customer Support Service

The high power gear-driven spindle of NHM Series yields excellent rigidity for diverse materials.

Powerful Spindle

Designed to minimize vibration and thermal error while offering rapid acceleration and deceleration, the spindle guarantees excellent cutting performance from steel to nonferrous metal parts

Model	Rotation rate r/min	Output kW (Hp)	Torque N·m (ft·lb)	Specification
NHM 5000	6000	15 / 25 (20.1 / 33.5)	1034 (25.8)	ISO #50
NHM 6300		22 / 35 (29.5 / 46.9)	1732 (1277.5)	
NHM 8000				

Spindle Cooling System

The spindle temperature is kept uniform by the cooling system. The temperature sensor controls temperature of the jacket surrounding the spindle as well as the temperature of oil circulating about the spindle bearing, the gear and the motor flange for ensuring stable and precise machining.

Dual Contact Tool System

Tool rigidity is enhanced by the firm clamping of the spindle. Tool lifecycle and cut-surface roughness have been improved as a result of the reduced vibration realized by the dual contact spindle.

Automatic Tool Changer

The servo-driven ATC provides high reliability and reduces tool change time.

Servo-driven ATC

The ATC is capable of handling weight from 25kg to 30kg at high speed using a servo motor, and fast tool indexing and spindle positioning.

Cutting Capacity			
Model	Unit	Max. tool diameter x max. tool length	
		BT / CT / DIN	HSK
NHM 5000	mm (inch)	320 x 530 (12.6 x 20.8)	320 x 600 (12.6 x 23.6)
NHM 6300	mm (inch)	320 x 630 (12.6 x 24.8)	320 x 700 (12.6 x 27.6)
NHM 8000	mm (inch)	320 x 630 (12.6 x 24.8)	320 x 700 (12.6 x 27.6)

Tool change time (tool weight of less than 12 kg (26.5 lb))			
Model	Unit	Tool to tool	Chip to chip
NHM 5000	s	2	6.4
NHM 6300	s		6.7
NHM 8000	s		8

Convenient Short Tool Cutting

The distance between the spindle and the center of the pallet has been reduced for heavier-duty cutting with shorter tools.

Features

- Increased tool rigidity with a larger diameter
- Innovative improvement of ATC repeatability
- Minimal Z axis displacement at high speed
- Increased tool service life

Tool Magazine

60 tools as a standard feature in addition to various options

Tool Magazine for Diverse Types of Tools, including Chain and Matrix Tool Types

The NHM Series provides 60 tools as a standard feature, and up to 376 tools as an option.

Chain type magazine

Customer Support Service

Improved Pallet and APC System

The servo-driven APC system realizes increased productivity with fast and accurate pallet change. In addition to its excellent reliability, the improved APC has more space for the operator's convenience.

Classification	NHM 5000	NHM 6300	NHM 8000
Pallet change time	8.5 s	12 s	16 s

Cone Air Blower

As a mechanism designed for precise pallet position repeatability, the cone air blower injects high-pressure air into the table fixing pin connecting the table and the pallet in order to remove chips from the pin and guaranteeing them seating at the correct positioning of the workpiece.

Max. Workpiece Size

The NHM Series provides more space for heavier and larger workpieces.

Max. workpiece size (D X H)		
NHM 5000	mm (inch)	Ø 850 x 1100 (33.5 / 43.3)
NHM 6300	mm (inch)	Ø 1050 x 1350 (41.3 / 53.1)
NHM 8000	mm (inch)	Ø 1450 x 1550 (57.1 / 61)
Max. workpiece weight (W)		
NHM 5000	kg (lb)	800 (1763.7)
NHM 6300	kg (lb)	1200 (2645.5)
NHM 8000	kg (lb)	2000 (4409.2)

The NHP Series realizes excellent machining performance thanks to its improved structure and comprehensive tooling system.

Higher Cutting Power

High-rigidity machining can be carried out with precision accuracy and diverse functions.

High Productivity

Customer Support Service

We offer a wide range of solutions that can be optimized to suit each customer's needs.

Clamping Fixtures

The following hydraulic and pneumatic fixture options are available for setting up workpieces:

A variety of preparations for workpiece clamping fixtures (hydraulic / pneumatic) **option**

Hydraulic / pneumatic fixture pot

- A/B Line : 2, 4, 6, 8 Pairs (Including solenoid valve)
- P/T Line : 2, 4, 6, 8 Pairs (Excluding solenoid valve)

Clamping fixture hydraulic motor

- 2.2 kW (3.0 Hp) / 7MPa
- 3.7 kW (5.0 Hp) / 15MPa
- 5.5 kW (7.4 Hp) / 21MPa

※ Please provide us with detailed specifications on the order sheet.

Pallet Extension System

Doosan's linear pallet system (LPS) and multipallet system (MPS) provides users with maximized productivity, rapid installation and commissioning, and easy maintainability.

Doosan Linear Pallet System [LPS II] option

Designed to provide users with an optimised system, the LPSII linear pallet systems designed and constructed by Doosan, offering outstanding flexibility, including system extension and layout change.

LPS II (Linear Pallet System)

LPS II Model	LPS 500 II	LPS 630 II	LPS 800 II
Available Model	NHM 5000	NHM 6300	NHM 8000
Forking type	Twin Fork type		
No. of machines	1 – 7		
No. of setup stations	1 – 4		
No. of pallets	12 ~ 70	10 ~ 70	8 ~ 70
Dimensions (LxW)	7824 x 2400 mm (308.0 X 94.5 inch)	7904 x 785 mm (311.2 X 30.9 inch)	8952 x 3500 mm (352.4 X 137.8 inch)

Features

- Easy for system extension
- Sufficient workpiece space for high level of work efficiency
- Stable and efficient system operation
- Faster installation and commissioning
- Applicable to all HMC Series machines
- Excellent maintainability

LPS Standard Control Software

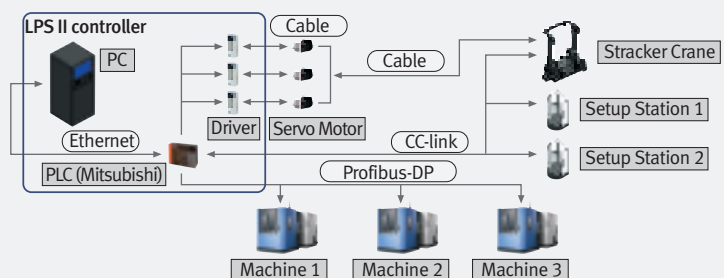

- Easily-storable basic information for flexible production.
- Platform management software for rapid production and changes in quantity.
- LPS management solution for fast and flexible production and sudden changes in quantity.

Doosan Production Management System [DPMS]

The DPMS is an operating system designed to ensure effective control and management of the LPS. The main window provides a solution that enables a flexible and rapid response to changes in output.

Doosan Multi-pallet Station [MPS] option

Compared with standard machines that use 2-pallet type APCs, the MPS can automatically handle 7 to 9 pallets for an extended period. This function enables small quantity batch production using machining scheduling.

Doosan Multi-pallet Station [DMPS]

The DPMS is an operating system for effective control and management of the MPS. The functions of the DPMS include scheduled operation, data input, and setting change.

* Chip conveyor and MPS foot board are excluded.

User Friendly

Ergonomic design guarantees users' convenience and safety.

User-oriented Design

Internal footings and an anti-door-lock function are provided to prevent the operator from being locked in the machine and to guarantee the operator's safety. The centralized service unit and screen panel enhance the operator's convenience.

1.
Flushing system to remove chips from the spindle top and slide cover.

2.
Coolant through spindle function for enhanced productivity option

3.
Centralized utility service unit
The utilities service unit is centralized for convenient maintainability.

ATC screen panel provides easy tool data entry at the tool magazine area

Safety has been improved with machine internal footings

Anti-door lock device

User Convenience

User convenience has been significantly enhanced with a new operation panel.

Simple and Convenient Operation Panel

The operator's panel has been redesigned and integrated for better usability. Additional, customized function switches (option) can be provided to maximize the operator's convenience.

Clamping fixture lock/unlock button, counter, timer and other special optional buttons can be provided.

The buttons are separated by partitions in order to prevent erroneous operation of the buttons.

Swiveling Operating Panel

The operating panel can swivel by 90°, and displays various alarm messages concerning machine and controller error, enhancing the operator's convenience.

PCMCIA Card

The PCMCIA card enables uploading and downloading of the NC program, NC parameters, tool information, and ladder programs, and also supports DNC operation.

Portable MPG

The portable MPG allows the user to set up workpieces more easily.

USB Port

Upload/download of NC software programs, NC parameters, tool information and ladder program using a USB drive is allowed, but DNC operation is not supported.

EOP Function

Doosan's Easy Operation Package (EOP) supports the user with tool, help desk, operation, and pallet magazine functions among others.

Easy Operation Package

Doosan's EOP supports the user with tool, help desk, operation, and pallet magazine functions among others to maximize operational efficiency and user convenience.

Tool Support Functions

Tool management I

- Tool magazine control
- Tool state display
- Fastems Tool Add/Remove Function **option**

Tool management II **option**

- Tool magazine control
- Tool life management
- Tool life prediction
- Tool state control
- Balluff Tool ID function

Tool load monitor **option**

- Detection of tool damage
- Detection of abnormalities during operation
- Detection of no-load air cutting

ATC / APC panel

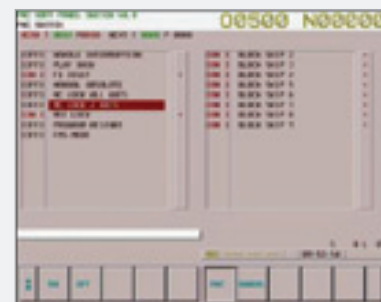

- ATC manual
- APC manual

Operation Support Functions

Operation rate

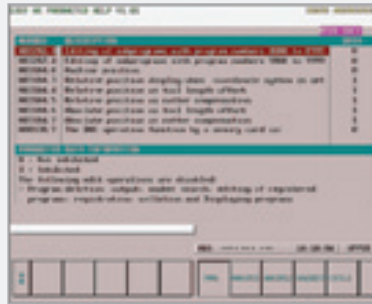

- Measure various machine operating rate
- Support 3 shift operation
- calculate and save 30 days operating rate
- Show data for a specific period

PMC switch

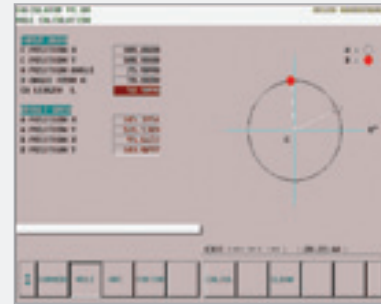

- Operation panel function (option)
- Substitutes toggle switches
- NC option software

Help Desk Functions

Easy NC parameter

- Help for major parameters
- Show parameter settings

Calculator

- Calculator function
- 4 arithmetical operations
- Supports mathematical functions

M CODE List

- List of major M codes

G CODE List

- List of major G codes

Pallet Magazine Support Functions

Multi-pallet station option

- Control MPS operation
- Display information on MPS PMG
- Set-up of machining schedule
- Auto Call function
- Manual operation and coordinate setting function

APC setting

- 2-pallet APC operation screen

	APC indexing angle (rotation)		deg	90		
Automatic Tool Changer (ATC)	Tool shank type		BT50 {CAT50 / DIN50 / HSK-A100}*			
	Tool storage capacity	Chain type	ea	60 {90 / 120 / 150}		
		Matrix type	ea	{196 / 256 / 316 / 376}*		
	Max. tool diameter	W/O adjacent tool	mm (inch)	320 (12.6)		
		With adjacent tool	mm (inch)	130 (5.1)		
	Max. tool length		mm (inch)	530 (20.8) (BT / CAT / DIN), 600 (HSK)	630 (24.8) (BT / CAT / DIN), 700 (HSK)	630 (24.8) (BT / CAT / DIN), 700 (HSK)
	Max. tool weight		kg (lb)	30 (66)		
	Max. tool moment		N·m (ft·lbs)	34.3 (25.3)		
	Tool change time (tool to tool, tools weighing less than 12kg(26.5lb))		s	2		
	Tool change time (chip-to-chip, tools weighing less than 12kg(26.5lb))		s	6.4	6.7	8
Motor	Spindle motor power		kW (Hp)	25 / 15 {35 / 22} (33.5 / 20.1 {46.9 / 29.5}*)	35 / 22 (46.9 / 29.5)	
Power Source	Power consumption		kVA	60	70	
	Compressed air pressure		Mpa (psi)	0.54 (78.3)		
Tank Capacity	Coolant tank capacity		L (galon)	825 (217.9)	925 (244.4)	
	Lubricant tank capacity		L (galon)	7.2 (1.9)		
Machine Dimensions	Height		mm (inch)	3330 (131.1)	3495 (137.6)	3760 (148)
	Length		mm (inch)	6075 (239.2)	6522 (256.8)	7380 (290.6)
	Width		mm (inch)	3670 (144.5)	3930 (154.7)	4325 (170.3)
	Weight		kg (lb)	18500 (40785.5)	20500 (45194.8)	25500 (56217.9)

NC Unit Specifications

FANUC

● Standard ○ Optional X N/A

Item	Spec.	Fanuc 31i
AXES CONTROL		
Controlled axes	4 (X,Y,Z,B)	X, Y, Z, B
Additional controlled axes	ADD 1 AXIS (5TH AXIS)	○
Simultaneously controlled axes	Positioning(G00)/Linear interpolation(G01) : 3 axes Circular interpolation(G02, G03) : 2 axes	●
Least command increment	0.001 mm / 0.0001"	●
Least input increment	0.001 mm / 0.0001"	●
Increment system C	IS-C	○
Interpolation type pitch error compensation		○
Position switch		○
Inverse time feed		○
Cylindrical interpolation	G07.1	○
NURBS interpolation		○
Bell-type acceleration/deceleration before look ahead interpolation	Included in AI contour control I or II (Oi-MF, 31/32)	●
Rigid tapping bell-shaped acceleration/ deceleration	Rigid tapping is required.	○
Exponential interpolation		○
Involute interpolation		○
Smooth backlash compensation		●
Automatic corner override	G62	○
Automatic corner deceleration	Included in AI contour control I or II (Oi-MF, 31/32)	●
Cutting feedrate clamp		●
Rapid traverse bell-shaped acceleration/ deceleration		●
Handle interruption		○
Manual handle retrace		○
Manual handle feed 2/3 unit		○
Nano smoothing		○
AICC II	200BLOCK	●
	400 BLOCK	○
High-speed processing	600 BLOCK	○
Look-ahead blocks expansion	1000 BLOCK	○
Linear ACC/DEC before cutting feed interpolation		●
SPINDLE & M-CODE FUNCTION		
M-code function	M 4 digits	●
Spindle orientation		●
Retraction for rigid tapping		●
Rigid tapping	G84, G74	●
TOOL FUNCTION		
Number of tool offsets	200-pairs	●
	400-pairs	○
	499 / 999 / 2000 -pairs	○
Tool nose radius compensation	G40, G41, G42	●
Tool length compensation	G43, G44, G49	●
Tool life management		●
Addition of tool pairs for tool life management		○
Tool number command	T4 digits	●
Tool offset memory C	Geometry / Wear and Length / Radius offset memory	●
Tool length measurement		●
Tool length offset		●
Tool offset	G45 - G48	○
Rotary table dynamic fixture offset		○
Work setting error compensation		○
PROGRAMMING & EDITING FUNCTION		
Absolute / Incremental programming	G90 / G91	●
Automatic Coordinate system setting		●
Background editing		●
Canned cycle	G73, G74, G76, G80 - G89, G99	●
Circular interpolation by radius programming		●
Custom macro		●
Addition of custom macro common variables	#100 - #199, #500 - #999	●
Macro executor		●
Custom software	2MB	X
	4MB, 6MB	X
	8MB	●
	12MB, 16MB	○
Decimal point input		●

Item	Spec.	Fanuc 31i
Extended P-code variables 256Kbyte		X
Extended P-code variables 512Kbyte		●
Extended P-code variables 1Mbyte		X
Extended part program editing		●
Part program storage	256KB(640m)	●
	512KB(1,280m)	○
	1MB(2,560m)	○
	2MB(5,120m)	○
	4MB(1,0240m)	○
	8MB(2,0480m)	○
Inch/metric conversion	G20 / G21	●
Label skip		●
Maximum commandable value	±99999.999mm (±9999.9999 inch)	●
Number of Registered programs	400 ea	X
	500 ea	●
Optional block skip	1 BLOCK	●
	9 BLOCK	○
Optional stop	M01	●
Program file name	32 characters	●
Program number	04-digits	X
Sequence number	N 8-digit	N8 digit
Playback function		○
Workpiece coordinate system	G52 - G59	●
Addition of workpiece coordinate system	G54.1 P1 - 48 (48 pairs)	●
	G54.1 P1 - 300 (300 pairs)	○
Tilted working plane indexing command	G68.2	○
OTHERS FUNCTIONS (Operation, setting & Display, etc)		
Embedded Ethernet		●
MDI / DISPLAY unit	8.4" Color LCD, keyboard for data input(small), soft-keys	X
	10.4" Color LCD, Keyboard for data input, soft-keys	X
	15" Color LCD, Keyboard for data input, soft-keys	●
I/O interface	RS - 232C	●
USB memory interface	Only Data Read & Write	●
Stored stroke check 2		○
Multi language display		●
3rd / 4th reference return		○
Cs contouring control		○
Reader/Puncher interface (for 2ch)		●
Multi spindle control		X
Retraction for 3-dimensional rigid tapping		○
Extended Spindle orientation (Spindle Multi Orientation)		●
Chopping function	G81.1	○
High speed skip function		○
Polar coordinate command	G15 / G16	○
Polar coordinate interpolation	G12.1 / G13.1	○
Programmable mirror image	G50.1 / G51.1	○
Scaling	G50, G51	○
Single direction positioning	G60	○
Pattern data input		○
Jerk control	AI contour control II is required.	○
Fast Data server with 1GB PCMCIA card		○
Fast Ethernet		○
3-dimensional coordinate conversion		○
3-dimensional tool compensation		○
3-dimensional manual feed		○
CNC screen display		●
CNC screen dual display function		●
Tape format for FS15		○
Tape format for FS10/11		X
Figure copying	G72.1, G72.2	○
Machining time stamp function		○
Machining quality level adjustment		○
EZ Guide I with 15" Color TFT	-Doosan Conversational Programming Solution -When the EZ Guide i is used, the Dynamic graphic display cannot application	○
Dynamic graphic display (with 15" Color TFT LCD)	-Machining profile drawing. -When the EZ Guide i is used, the Dynamic graphic display cannot application	○

Responding to Customers Anytime, Anywhere

Doosan Machine Tools' Global Network, Responding to Customer's Needs nearby, Anytime, Anywhere

Doosan machine tools provides a system-based professional support service before and after the machine tool sale by responding quickly and efficiently to customers' demands.

By supplying spare parts, product training, field service and technical support, we can provide top class support to our customers around the world.

Global Sales and Service Support Network

Corporations	Dealer Networks	Technical Centers Technical Center: Sales Support, Service Support, Parts Support	Service Post	Factories

Doosan Machine Tools Customer Support Service

We help customers to achieve success by providing a variety of professional services from pre-sales consultancy to post-sales support.

Supplying Parts

- Supplying a wide range of original Doosan spare parts
- Parts repair service

Field Services

- On site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair

Technical Support

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy

Training

- Programming / machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

Major Specifications

NHM series

Description	Unit	NHM 5000	NHM 6300	NHM 8000
Pallet size	mm (inch)	500 x 500 (19.7 x 19.7)	630 x 630 (24.8 x 24.8)	800 x 800 (31.5 x 31.5)
Tool taper	taper	50	50	50
Max. spindle speed	r/min	6000	6000	6000
Max. spindle motor power	kW (Hp)	25 (33.5)	35 (46.9)	35 (46.9)
Travel distance (X / Y / Z)	mm (inch)	800 / 700 / 850 (31.5 / 27.6 / 33.5)	1050 / 850 / 1000 (41.3 / 33.5 / 33.4)	1400 / 1050 / 1200 (55.1 / 41.3 / 47.2)
Tool storage capacity	ea	60	60	60

* For more details, please contact Doosan Machine Tools.

* The specifications and information above-mentioned may be changed without prior notice.

* Doosan Machine Tools Co., Ltd. is a subsidiary of MBK Partners. The trademark **DOOSAN** is used under a licensing agreement with Doosan Corporation, the registered trademark holder.

**Fire Safety
Precautions**

There is a high risk of fire when using non-water-soluble cutting fluids, processing flammable materials, neglecting use coolants and modifying the machine without the consent of the manufacturer. Please check the SAFETY GUIDANCE carefully before using the machine.
